Welcome to the August 2017 ANA World's Fair of Money Auction

Welcome to the August 2017 ANA World's Fair of Money Auction! The catalog you now hold in your hands is the product of months of dedicated work by our steadfast crew. I am very enthusiastic about the quality of the numismatic treasures and astonishing rarities found within the pages of this catalog.

The past few months have been a flurry of activity preparing this achievement, and as you browse page upon page of fantastic coinage, I hope you feel the same excitement that we do. In addition to the thrill of the auction, Stack's Bowers Galleries is pleased to be a major presence at the American Numismatic Association's World's Fair of Money, to be held August 1-5 in lovely Denver, Colorado. As you stroll along

the bourse floor, passing coin dealers from around the world, please stop by and say hello.

On behalf of everyone here at Stack's Bowers Galleries I wish you happy and successful bidding.

Richard Ponterio

CALIGULA, A.D. 37-41

- 20086 AR Denarius (3.83 gms), Lugdunum Mint, ca. A.D. 37.** RIC-2; BMC-3. "C CAESAR AVG GERM P M TR POT COS" Bare head of Caligula facing right; Reverse: Radiate deified bust of Augustus facing right, flanked by two stars. The presence of stars flanking the deified bust of Augustus is possibly a representation of Halley's comet. Early in the reign of Augustus when Halley's comet passed over Rome, Augustus claimed it to be the spirit of Julius Caesar entering the heavens. Caligula chose to use the same symbolism Augustus used for his predecessor, in honoring Augustus with this deification issue. Halley's comet over the years has been associated with several historical events, including the battle of Hastings. Some theologians even believe the appearance of Halley's comet may explain the biblical story of the "Star of Bethlehem". **RARE**, especially so in this state of preservation. Good metal quality, well centered, nice style on both portraits. A choice and interesting type.

Type Issued by law 1117 of October 24, 1834. Hand on book type overstruck on an 1828-I Chilean 8 Escudos and **VERY RARE** as such. In March of 1836 a decree was issued recalling earlier dated Chilean 8 Escudos namely those dated 1826 and 1830 as counterfeits of those dates had started appearing in the market place. Supposedly the recalled pieces when brought to the mint were separated and either overstruck such as the present example or melted down in the case of being counterfeit. Mint records indicate that 2400 pesos worth of 8 escudos, 150 pieces were overstruck. Even though the decree was set to recall 1826 and 1830 dated pieces, clearly other dates were also brought to the mint for verification and ultimately overstruck. Moderate signs of circulation with plenty of details from the undertype visible without the aid of magnification. Ghosting of the last digit of the date of the undertype at the beginning of the obverse legend between the rosette and "I" visible under magnification. Well struck and attractively toned with a nice original skin. Clearly an example which sat for a prolonged period of time undisturbed. COLOMBIA

20248 Contemporary Counterfeit 8 Escudos, 1803-JJ. 26.90 gms. cf.Fr-51; cf.Calico-1499; cf.KM-62.1. Pale orange-gold surfaces are richer orange at the borders of the devices and legends, the surfaces bearing just a short scuff across Charles' neck, and test filings are noted along the edge below the date and along the rim above his head. The strike is full and centered, the denticles shortening and elongating according to the contours of the rim. The die work is competent yet displays enough slight differences to categorize this as a contemporary counterfeit. Interesting to note is that the metal has started to crystallize and is most prevalent on the reverse. This leads us to believe that it is not one of the contemporary forgeries struck in gilt platinum produced by mint employees in after hours activities, but rather one produced outside the mint to be passed into circulation by some unscrupulous individuals. A specific gravity test yields a result of 15.854 which comes out to about 81.5% gold with a variance of -1.8 which would place the gold content at about 83.3% pure gold. An interesting piece which deserves further research and sure expand any already advanced collection.

20291 Ducat, 1746. Frederik V (1746-66). Fr-264; KM-552; Sieg-28; H-7. Struck from gold acquired from the Danish Gold Coast in the gulf of Guinea now present day southeast Ghana. The reverse depicts the port of Fort Christiansborg (Osu Castle) to left and ship right. The first substantial fort built in the area in the 1660's by Denmark-Norway which changed hands several times before Ghana finally gained independence. In 1693 the ethnic Akwamu tribe had taken possession of the fort by overpowering the occupants while disguised as merchants. About one year later the tribal leader Assameni sold the fort back to the Danes in 1694 for 50 Marks of gold, but retained possession of the city. The Akwamu were not kind to the city and the English had reported the state of disrepair in 1722. Later in the century vast improvements were made, but the structural improvements were not made until 1824. Well struck and lustrous. Lovely orange tone radiates from the devices with an attractive honey-gold tone in the open areas and the tops of the devices. Quite the treat for Danish collectors that tells an interesting story.

ECUADOR

20294 5 Francos, 1858-GJ. Quito Mint. KM-39; Y-13; Seppa-EC-73; Carr-64; EL-2. VERY SCARCE and popular one year type. Designed by local Ecuadorian artist Emilia Rivadaneira as marked with small capital letters "E.R." below bust. Emilia was the sister of Manuel Rivadaneira who received the contract for the first Ecuadorian Postage Stamp. The idea for instituting a new decimal coinage system was presented to congress in November of 1856 with the idea of replacing the old debased real system. By article 5 a fixed period of two years was set for instituting the new decimal system (From October 15th 1858, or sooner if possible). The budget for 1857 provided 18,000 Pesos, 8,000 Pesos of which was intended for development of the mint. In accordance with the decree, in state offices 5 Francos pieces were to be accepted and paid out at 10 Reales of the decimal system or at 9 of the base coinage. This proved highly ineffective as the official rate often differed from that found in the marketplace. Hence 5 Francos circulated in the Imbabura market at the rate of 10 Reales, while the capital accepted them at 9, and in Guayaquil they were being accepted at 8. This caused severe damage to the economy of Ecuador and was disastrous with foreign trade. According to Carbo 14,259 Pesos of silver coins were struck in 1858, presumably these are 5 Francos since no other coins were minted this year. On March 22nd of the following year a massive earthquake occurred in Ecuador. Serious damage was caused throughout the city of Quito, including what Architect Melvin Hoyos Galaza described as "The end of the Quito Mint". The damage to the mint was so severe that it was not repaired until 1861 by an 8000 Peso loan advanced by the Banco Particular. For more information see "A Numismatic History of Ecuador" by: Michael Anderson. Chapter 7 of his book meticulously discusses the first decimalization. Attractive soft blue grey toning with nice underlying luster. The first decimal Crown of Ecuador.

Choice Pavillion d'Or of Edward the Black Prince

20315 Aquitaine. Pavillion d'Or, (2nd Issue, ca. 1366-72). Bordeaux Mint. Edward (The Black Prince) (1362-72). Fr-5; Peoy d'Avant-2928. **RARE** in this state of preservation. Lion's and Fluer de lis are in opposite positions on reverse than they normally appear. In February of 1367 the prince sent armed forces to help Pedro the cruel of Spain to regain his throne. Once Pedro was restored to the throne he failed to repay Edward the funds he promised to pay his soldiers. This forced Edward to levy a hearth tax in order to raise the necessary funds probably resulting in the issuance of the lighter weight present example also denoted by the presence of the "E" at center of the reverse. The King of France Charles V was quite displeased with these actions and summoned the prince to appear in Paris as this tax was a direct violation of the Treaty of Bretigny. The prince had a rather bold and well known reply "Willingly will we go to the Court of Paris, as the King

of France orders it; but it shall be with helmet on head, and 60,000 men with us", but failed to appear as his health was in shambles. His failure to appear at the court of the King ended with France declaring war on April 29, 1369. In June Edward III reassumed the title of King of France and in December of the same year Aquitaine had been completely confiscated by Charles V. The prince left for England in January 1371 and in November of 1372 formally surrendered Aquitaine to Edward III. Battles, occupation and re-occupation had taken place and by the end of 1373 only Bordeaux and Bayonne were left in the hands of the English. The Black prince with many years of deteriorating health finally died on June 8, 1376. Bold strike with soft satin luster and quite attractive.

GREAT BRITAIN

20440 Sovereign of 20 Shillings, (1551-53). Tun Mint Mark. Edward VI (1547-53). Fr-186; S-2450; North-1927. During Edwards relatively short reign he was governed by a Regency Council since taking the throne at the age of nine, he was never able to gain control. Social unrest and economic problems were real issues for him with an unsuccessful war with Scotland and the transformation of the Church into a

recognized Protestant body. He fell terminally ill early in 1553 and died on 6 July the same year at the age of 15. Nice strike on a full round planchet with full legends on both sides. Attractive with lovely orange tone in the peripheries.

During the 44 years Elizabeth I was on the throne she made many advances for her country as well as benefited from more than her fair share of good luck. When it came to government she was a moderate with one of her mottoes "Video et taceo" ("I see but say nothing") and was fairly tolerant when it came

to religious matters. Her defeat of the Spanish Armada in 1588 is considered one of England's greatest military victories in history. An impressive problem free example of this large gold type which exhibits an excellent strike showing the fine details on both the obverse and reverse.

High Grade 5 Guineas of James II

GREAT BRITAIN

20452 5 Guineas, 1687. James II (1685-88). S-3397A; Fr-292; KM-460.1. Second laureate bust. James II has been considered many things throughout English history; tyrannical, religious bigot, absolutist and unwilling to compromise. However during his short four year reign he kept taxes low and really did want religious freedom and equality. This of course did not sit well with Parliament who was primarily Protestant as James had replaced many high officials in the country with Catholics. While trying to flee from invading forces of his own daughter Mary and her husband William of Orange who were

both protestant he allegedly threw the Great Seal of the Realm in the River Thames and was captured on December 11, 1688. On December 23 of the same year James was allowed to escape and fled to France where Louis XIV his cousin and ally received him with open arms and offered him a palace and pension. He lived out the rest of his life in exile. Nice strike with a few trivial handling marks and light attractive honey gold tone.

20485 5 Pounds, 1887. Fr-390; S-3864; KM-769. Minor contact marks and evidence of handling as would be expected from the grade designation. Well struck and lustrous with attractive satiny surfaces and light honey gold tone.

NGC MS-61. \$2,000-\$2,500
Ex: Stack's Sale October 1982, Lot #1205.

20484 5 Pounds, 1887. Fr-390; S-3864; KM-769. Well struck and solid for the grade. Lustrous with light attractive honey-gold tone in the open fields which deepens towards the edges.

NGC MS-62. \$2,500-\$3,000

20486 Sovereign, 1887. Fr-392a; S-3866B; KM-767. Repositioned legend where "G." is now closer to crown. Mintage of only 797 pieces. Sharply struck as would be expected being a Royal mint product with hard flashy proof surfaces and stark contrast to the frosted devices. Light directional hairlines on the obverse now somewhat subdued from attractive honey-gold tone in the open fields which transitions to a lovely light apricot in the protected areas and amongst the devices.

20509 Festival of Britain Medals Display Set by Paul Vincze, 1951. BHM-4427. The obverse bears the naked image of a man holding a hammer in one hand, and the shoulder of a youth with the other, both of whom are surveying the modernistic buildings of the festival grounds in the distance. The reverse shows a view of the Crystal Palace exhibition hall on the grounds of the Great Exposition, regarded as the first "World's Fair", which had been held nearby exactly 100 years earlier. The post war years were austere times in England, and this celebration was to focus on the achievements of Britain itself - not the Commonwealth, or the world which had been the focus of the Great Exposition. Although a five shilling Crown coin was issued in honor of (but not mentioning) the event, the token and medal production for this celebration was very limited, befitting the sober times. This set includes the standard 38 mm bronze, silver and gold medals, and an impressive 215 mm bronze galvano of the obverse. The set, which is housed in a custom 33x49 cm plastic display plaque also bears a printed and typed gilt-edged information card inscribed, in part, "This is to certify that the enclosed 1 1/2" medal commemorating the Festival of Britain is the Number 2 copy of a limited edition of 10 (9 kt) gold medals, together with the supporting original size (8 1/2") Bronze Cast Number 1 of a limited edition of 10. The card is hand-signed by the artist. **VERY RARE** and an important acquisition for the Paul Vincze collector.

20510 Queen Elizabeth II Coronation Medals Display Set by Paul Vincze, 1953. BHM-4451. The medal that many numismatic historians feel established Paul Vincze as the preeminent figure in medallic portraiture. His evocative portrait of the young Queen stood out from the run-of-the-mill medals produced for the Coronation, and the reverse image of a young woman nurturing a single plant with thistles, shamrocks and a blooming rose struck a chord that moved many Britons. This set features the standard 38 mm bronze and silver medals, the very rare 18K gold version, and a magnificent and very impressive 193 mm bronze galvano of the obverse. The set, which is housed in a custom 33x49 cm plastic display plaque also bears a printed and typed gilt-edged information card inscribed, in part, "This is to certify that the enclosed Coronation Medal of Her Majesty Queen Elizabeth II is the Number 2 Copy of a limited edition of 25 (18 kt) gold medals, together with the supporting original size (7 3/4") Bronze Cast Number 5 of a limited edition of 10, and that it is the first cast with the correct and final inscription". The card is hand-signed by the artist. An important and significant acquisition for the Paul Vincze collector, or collector of British Coronation Medals.

21001 8 Reales, 1757-J. Ferdinand VI (1746-60). KM-18; FC-5; El-7; Gil-G-8-4. Excellent strike with attractive deep old envelope tone and strong underlying luster. Quite a lovely example and far nicer than normally encountered. Sure to excite the specialist of Spanish colonial coinage.

NGC AU-58. \$1,500-\$2,000
 From the Richard Stuart Collection.

21002 8 Reales, 1758-J. Ferdinand VI (1746-60). KM-18; FC-6; El-164-S; Gil-G-8-5. **VERY RARE** in this high state of preservation as are all Guatemala pillar dollars. Much better than normal strike for this type showing full letters on the ribbons. Light attractive toning with soft satin underlying luster. Great eye appeal and an excellent example of this type.

NGC MS-62. \$3,000-\$4,000
 From the Richard Stuart Collection.

21003 8 Reales, 1764-P. Charles III (1759-88). KM-27.1; FC-13; Gil-G-8-13. **VERY RARE** in this state of preservation from a popular and desirable mint. Normally found in low or impaired condition with higher grade example extremely difficult to obtain. Sharply struck with the fine details on both the obverse and reverse visible without the aid of magnification. Attractive glossy slate grey tone with hints of blue iridescence in the protected areas and medium grey in some of the open fields. Sure to excite even the most advance collector of Guatemala or Spanish Colonial coinage.

NGC AU-55. \$3,500-\$5,000
 From the Richard Stuart Collection.

21004 8 Reales, 1768-P. Charles III (1759-88). KM-27.1; FC-17; El-20; Gil-G-8-16b. Obverse crown type d; Reverse: cross below "I" of "HISPAN"; no stop between "G" and "H". Evidence of the last two digits of the date repunched. **VERY RARE** variety with easily identifiable die characteristics. Good strike with light grey tone in the open fields and mild russet hugging the devices of the obverse while the reverse has a more even tone and displays a bit deeper hues in the peripheries. Lustrous and quite attractive.

NGC AU-55. \$1,400-\$1,800
 From the Richard Stuart Collection.

GUATEMALA

21005 4 Reales, 1772-P. Antigua Mint. Charles III (1759-88). KM-35.1. **RARE**, first year of a three year type with single letter mintmark. The mint was destroyed in an volcanic eruption and earthquake in 1773. A new mint and capitol was established at Nueva Guatemala City and production began in late 1776 using the "NG" mintmark. Moderate wear and very attractively toned showing blue, red and golden hues with luster in the protected areas. Clearly this piece sat for a prolonged period of time undisturbed. Exceptional quality and far superior to the normally well worn examples of this issue which are normally seen.

NGC EF-45. \$700-\$1,000

From the Richard Stuart Collection.

21006 8 Reales, 1777-P. Charles III (1759-88). KM-36.2; FC-24; El-30. Excellent strike and good definition of the fine details. Lovely deep old envelope tone with mottled cobalt and gold hues and considerable underlying luster. Quite an attractive example and much nicer than normally found.

NGC AU-55. \$1,400-\$1,800

From the Richard Stuart Collection.

21007 8 Reales, 1778-P. Charles III (1759-88). KM-36.2; FC-25; El-31. **VERY RARE** and tied for finest certified of the date with one other example at NGC and none graded by PCGS. Good strike with plenty of detail in the design and a lovely medium grey tone on the obverse which deepens towards the edge while the reverse displays a softer grey with golden highlights amongst the legend and other devices. An excellent example and sure to excite the connoisseur of Spanish colonial numismatics.

NGC AU-50. \$1,200-\$1,600

From the Richard Stuart Collection.

21008 8 Reales, 1779-P. Charles III (1759-88). KM-36.2; FC-26; El-32. **VERY RARE**. Single finest graded of the date at NGC with none grade by PCGS. Excellent strike with definition of the intricate details. Attractive envelope tone displaying hues of rose, blue and gold. Strong underlying luster and quite attractive.

Rare Transitional Type 8 Escudos

GUATEMALA

21009 8 Escudos, 1789-M. Fr-14; KM-49; Onza-972 (plate coin). Bust of Charles III, legend reads "Carol IV". **VERY RARE** two year type. Excellent strike defining even the most intricate portions of the design. Moderate even wear throughout with plenty of remaining details to the bust and crowned arms consistent with the grade. Luster in the protected areas of the

legend with lovely honey-gold tone in the open fields which deepens towards the edges and soft rose on the high points. Clearly an example which sat for a prolonged period of time undisturbed. Quite attractive with great eye appeal.

NGC EF-45. **\$10,000-\$15,000**
From the Richard Stuart Collection.

GUATEMALA

21010 8 Reales, 1789-M. Charles IV (1788-1808). KM-45; FC-34; EI-44. Bust of Charles III, legend reads "Carolus IV"; "IV" Ordinal over "III". Interesting to note that Freeman Craig lists an unconfirmed and doubtful posthumous issue of Charles III of this date. Clearly the dies were prepared, but later word was received of the passing of the king and altered the dies by punching the ordinal of the new king "IV" over the previous "III". Well struck with good definition of the minute details and lovely deep tone showing a plethora of hues. An intriguing example worthy of further research. Sure to excite the most sophisticated of collectors.

NGC AU-53. \$1,000-\$1,500

From the Richard Stuart Collection.

21011 8 Reales, 1789-M. Charles IV (1788-1808). KM-45; FC-34; EI-44; Cal-Type 73#617. Transitional issue with the portrait of Charles III and the legend: CAROLUS IV. Variety with clean ordinal which is much scarcer than the IV/III over ordinal. Sharply struck with light grey toning showing iridescent golden hues. An exceptional example of this normally well worn issue.

NGC AU-55. \$1,000-\$1,500

From the Richard Stuart Collection.

21012 8 Reales, 1790-M. Charles IV (1788-1808). KM-53; FC-36; EI-47. **RARE** first date with proper bust of Charles IV. Well struck with attractive light russet in the open fields and highlights of rose amongst the devices of the obverse. Quite a lovely example and sure to excite collectors of Spanish colonial.

NGC AU-53. \$1,000-\$1,500

From the Richard Stuart Collection.

21013 8 Reales, 1791-M. Charles IV (1788-1808). KM-53; FC-37; EI-48. **RARE** in this state of preservation. Single finest graded of the date at either NGC or PCGS. Sharply struck with excellent definition of the fine details. Lovely deep old envelope tone showing hues of cobalt throughout. Clearly an example that sat for a prolonged period of time undisturbed and quite attractive as such.

21014 8 Reales, 1795/4-M. Charles IV (1788-1808). KM-53; FC-41b. **VERY RARE** overdate. Second finest graded at NGC with one finer and none graded at PCGS. Well struck with smooth ash patina over the majority of the surfaces, a few areas of soft grey in the peripheries and a bit of shadow grey hugging the devices on the reverse. An attractive example with underlying luster. Quite the prize for the specialist of Guatemalan numismatics. The NGC insert does not indicate the overdate.

NGC MS-62. \$1,000-\$1,500
From the Richard Stuart Collection.

21015 8 Reales, 1796-M. Charles IV (1788-1808). KM-53; FC-42; El-53. **SCARCE** in the state of preservation. Well struck with good definition of the minute details light mottled toned with lovely iridescence, lustrous and quite attractive.

NGC MS-62. \$1,200-\$1,600
From the Richard Stuart Collection.

21016 Escudo, 1801-M. Fr-21; KM-55. VERY RARE three year type. Well struck and lustrous with attractive honey-gold tone. A real treat for the specialist of Spanish colonial, minor escudos and type collectors.

21020 8 Reales, 1807-M. Charles IV (1788-1808). KM-53; FC-53; El-65. **RARE** in this state of preservation. Tied for finest certified of the date with one other example at either NGC or PCGS. Sharply struck and lustrous with beautiful deep tone showing a plethora of hues such as lovely cobalt and violet on the obverse while the reverse displays cobalt and golden hues. Quite an attractive example and sure to excite collectors of Spanish colonial.

NGC MS-62. \$1,000-\$1,500
From the Richard Stuart Collection.

21021 8 Reales, 1808-M. KM-64; FC-54; El-67. Bust of Charles IV with the name of Ferdinand VII. **RARE** four year type. Second finest graded at NGC with a population of one and one finer (MS-64). Sharply struck and lustrous with medium grey tone which deepens around the legends and displays a plethora of hues when tilted. Quite attractive and sure to excite collectors of Spanish colonial.

NGC MS-63. \$3,000-\$4,000
From the Richard Stuart Collection.

21022 8 Reales, 1809-M. KM-64; FC-55a; El-68. Bust of Charles IV with the name of Ferdinand VII. Single finest graded of the clean date at NGC with none graded at PCGS. Sharply struck, lustrous and attractively toned displaying a lovely russet throughout which deepens around the devices with hints of cobalt. Good eye appeal and sure to excite even the most advance collector.

NGC MS-63. \$3,000-\$4,000

21023 Real, 1811-NGM. KM-66. **VERY SCARCE** date. Light adjustment marks on the obverse that do not detract from the overall eye appeal. Well struck on both sides with attractive original toning.

NGC MS-62. \$900-\$1,200

21024 4 Reales, 1815/4-M. KM-68. **SCARCE** in this high state of preservation. Third finest certified for the date at NGC with a total of only 8 examples for all dates of this type in mint state. Well struck and lustrous with attractive mottled tone showing golden hues. Here is an example where the grade does not necessarily reflect the quality. Quite a lovely piece with good eye appeal.

NGC MS-61. \$700-\$1,000
From the Richard Stuart Collection.

21025 Escudo, 1817-M. Fr-25; KM-74; Cal-type-66#278. Just a touch away from full mint state. Sharply struck with attractive orange peel tone and free of the adjustment marks that frequently plague this issue. Soft satin luster, highly attractive and an excellent example of this type.

NGC AU-58. \$1,400-\$1,700

21026 4 Reales, 1821-M. KM-68. **RARE** in this high state of preservation. Second finest graded for the date at NGC with a total of only 8 examples for all dates of this type in mint state. Well struck, lightly toned with just a hint of russet near the rims and strong underlying luster.

NGC MS-61. \$700-\$1,000
From the Richard Stuart Collection.

Mint State 2 Escudos from the Famed Eliasberg Collection

GUATEMALA

21027 2 Escudos, 1827-M. Fr-28; KM-12. Second finest graded with only one finer (MS65). A truly outstanding example with die crack through the "N" of "CENTRO" which is easily identifiable for this date. Highly lustrous with rich medium gold tone throughout and orange highlights in the peripheries. Far and away nicer than normally encountered and hard to imagine a more attractive example. A real prize

for the advanced collector of Central American Republic, Guatemala or World gold.

21028 8 Reales, 1840/37-MA/BA. KM-4; El-99. RARE in this state of preservation. Tied for finest certified of the date with one other example and none finer at either NGC or PCGS. Unusually sharp strike displaying every leaf of the ceiba tree. Highly lustrous with beautiful delicate multi-color tone. Sure to excite collectors of Central American Republic and worthy of a premium bid.

NGC MS-64. \$4,000-\$6,000

21029 8 Reales, 1840-MA. KM-4. A stunner of a coin from the first time you see it. Packed with flashing original luster throughout the surfaces which causes the vibrant rainbow toning to light up. Colors of golden yellow and orange, fiery lava red and electric blue are present on every speck of metal which is not in relief and is downright beautiful to behold. The strike is full and bold with only a slight deficiency on the central leaves of the Ceba tree which is the chronic issue for this type, although this example shows more leaves than most. One light adjustment mark runs across tree trunk only mentioned for accuracy. An absolute gem of a coin by every metric. The finest certified for this year of issue, including overdates and varieties, and one of only a handful of example for the entire run of the type to climb to this lofty grade.

NGC MS-65. \$6,000-\$8,000

21030 8 Reales, 1846/2-AE/MA. KM-4. CREZCA/CRESCA. A well known and interesting variety with many modifications to the dies. Well struck and highly lustrous with lovely delicate iridescent tone.

NGC MS-62. \$1,500-\$2,000

21031 8 Reales, 1846/2-AE. KM-4. "CREZCA" over "CRESCA" on reverse legend. Slightly weak strike in the centers which is somewhat endemic to this issue. However, the sun face is quite sharp and the luster is strong. Bright, frosty and quite attractive.

NGC MS-62. \$1,500-\$2,000

21032 1 Peso, 1893-RG. KM-201; El-130. Mintage of only 1,119 pieces. **VERY RARE** assayer/date combination with probably fewer than a dozen examples known and far better than normally encountered. Well struck with lovely golden tone in the open fields and quite attractive as such. An excellent example with a fabulous provenance.

21033 Trial Strike 5 & 10 Pesos Struck in Brass, 1894. Heaton Mint at Birmingham. KM-Pn25 & Pn28; Sweeny-GA7a (5 Pesos). According to James O. Sweeny, brilliant numismatist and famed author of "A Numismatic History of the Birmingham Mint" published 1981 on page 154 he quotes a letter to the Birmingham mint from the Paris legation of Guatemala dated 16 May 1895 "The engraving of the matrices for the gold and silver coins was.. well executed, the designs being both pleasing and artistic, and the specimen gold coins highly satisfactory." This of course refers to the 4 Reales, 1 Peso, 5 and

10 Pesos as well as specimen gold pieces. Sweeny was unaware of the 10 Pesos trial strike as the Heaton mint archives did not contain an example and should be considered **EXTREMELY RARE**. A lovely matched set with original gold like surfaces which deepen in the open fields and have an iridescent blue sheen while the reverse more of a red sheen. Quite the treat for the specialist of Guatemalan numismatics that are seldom offered.

21038 Provisional 2 Reales, (18)23-TL. Struck under the rule of Emperor Iturbide of Mexico. Tegucigalpa mint, KM-unlisted. (but cf. Jara, C: Central American Provisional and Provincial Mints 1822-1825" for a proper attribution). Wholesome and attractive for the assigned grade, with limited, even wear and no distracting flaws. A most exciting discovery specimen of this extremely rare and important type with the "T(egucigalpa) L(ibre) initials, of which less than 5 examples are now confirmed. The little known and understood "T. L" group of issues represent the transitional link between the comparatively well-known (yet of similar rarity) circular issues of the 2 Reales denomination listed in the SCWC as KM6, KM11, KM12 and KM14 and the imitation cobs of the PM-PY type dated 1823-1824 (listed in the SCWC as KM15 for the 2 Reales denomination). Fittingly, these "T. L" coins exist on both circular planchets (as the former group) or irregular ones (as the latter). As noted, both sub-varieties are **EXTREMELY RARE**, and a key to a proper understanding of the challenging series of provisional coinage struck in Tegucigalpa in 1823-1824.

Fabulous Fort William College Medal in Gold

21068 Gold Medal, 1805. British India (Bengal). Fort William College (Calcutta) Honorary Medal in Gold, 1805. 43 mm. 52.28 gms. Pud-800.2 (RR). A large, impressive medal with a mosque to the left, a pagoda to the right, a sailing ship in the distance between, and a radiant sun above. The inscription: "REDIT A NOBIS AURORA DIEMQUE REDUCIT" surrounds, and "IV MAY MDCCC" appears in the exergue. Reverse: The inscription: "COLLEGE OF FORT WILLIAM FEBY. VI MDCCCV / HONARY / MEDAL" is enclosed within a simple laurel wreath. The reverse of these medals were individually dated, in the die, each time one was awarded. The example in Puddester bears the date FEBY. VII MDCCCVII, but otherwise is the same as this medal. Originally the College of Fort William (1800 - 1854) concentrated in the instruction of Indian History, Law and Language, but later became a school for various Oriental languages. The grade description notes an edge repair (probably where a suspension loop had been mounted), but it is now apparently covered by one of the slab's tabs. Very Rare 20 Lire Struck From Eritrean Gold

ITALY

21111 20 Lire, 1902-R. Fr-23; KM-37.2; Mont-43; Gig-25a. With Anchor on Obverse indicating that the gold came from Eritrea. Mintage of only 115 pieces. According to the African Review May, 10 1902 Prior to 1899 Eritrea had never been prospected for minerals and during that year it was brought to the attention of the Governor of the Colony Signor Martini that a large block of rich gold-bearing quartz had been discovered by a native. Shortly thereafter two experienced prospectors with the aid of natives came to the conclusion that many of the outcropping quartz reefs contained gold. The Eritrea gold mining company was established in June of 1900 and the mines of Sciumaghelle with a depth of 200 feet and Medrizien with a depth of 140 feet were selected for the initial operations. By December 31, 1901 the two mines had yielded about 6 ounces of gold. Other mines were also set up at Regina di Saba, Adiconsì and Az Nefas with similar results. According to the Annual Report of the Director of the Mint (Washington) for the Fiscal Year Ended June 30, 1903 page 237: "In 1902 gold in the amount of 5,920 lire was

coined, in pieces of 20 lire, using in part, as an experiment, metal obtained from the mines of Eritrea and in part gold purchased". When divided by 20 the number comes to 296 total pieces struck for that year between domestic and imported gold. Also stated in the Mint report page 237: "Gold Produced from mines of the country during 1902: Kilograms, 11. The value of the gold produced, 37,811 Lire" and "Gold product of the colonies of the country during 1902: The gold Mining Company of Eritrea in the year 1902 continued the preliminary work begun in 1901, with satisfactory results. However, we have no figures as to the quantity of the production." Clearly not all of the gold produced during this year was used in the manufacture of coinage and must have been either deposited in the treasury, exported or used for other manufacturing. **VERY RARE**, historically significant and deserving of more in-depth research. Hard mirror fields with frosted cameo devices. Very attractive and sure to excite even the most advanced collector of Italian numismatics.

21157 4 Reales, 1732-Mo. Philip V (1700-46). KM-94; Gil-M-4-1 var.; Yonaka-M4-32; Cal-Type 177#1039; Harris-unlisted; Palmer & Almanzar-unlisted; Grove-761. Without assayers letter and denomination. **VERY RARE.** Gilboy states that this type which lacks the assayer's initials and denomination may be considered "trial pieces struck directly from the matrix sent from Madrid". Whether this is true or not remains a mystery, but is believed to be the case by leading experts in the field. In his new book "A Variety Guide to the Fractional Pillar Coinage of Mexico City 1732-1771" by Brad Yonaka he states "It is thought that these coins were struck from dies sent directly from Spain, to serve as examples of how the coin layout should look". Mr. Yonaka has spent many years studying fractional pillar coinage, corresponding with many advanced collectors as well as respected and knowledgeable dealers and auction houses. In the four Reales alone he examined over 600 specimens and was able to discern 332 distinct dies for the entire series. He also states that he was only able to locate four examples with two different die pairs of this particular type. In any case the present type without assayers letters and denomination is very important to Mexican numismatics as it represents the very first milled coinage of not just Mexico, but the entire Spanish new world. The noted impairment of "Mount Removed" was skillfully done long ago and is now beautifully toned over to match the rest of the coin. Lovely old cabinet tone throughout displaying attractive lilac-grey in the open fields and on the tops of the devices which deepens to slate with a blue sheen and when tilted in the light a lovely red and gold iridescence pops out on the lower portion of the obverse and reverse. Well struck with good eye appeal.

During this year the Mexico City Mint was still undergoing the process of modernizing with new minting equipment. Three types of 8 Reales were produced this year which included cobs, klippes, and the milled 8 Reales. For this reason the exact mintage for this type is unknown. It can be certain that it was quite low compared to later dates when the mint was fully equipped for the production of milled coinage. Mint State Iturbide 8 Escudos

MEXICO

21189 Empire of Iturbide. 8 Escudos, 1822-MoJM. Fr-59; KM-313.1. Type with proper spelling of "AUGUSTINUS". Tied for second finest certified with one finer. Augustin I Iturbide was proclaimed Emperor of Mexico shortly after the War of Independence. This was confirmed by the congress of May 19, 1822. On June 21st 1822 he was crowned as Augustin I in the cathedral of the capital. He ruled for less than a year at which point he was forced to abdicate the throne on March

19th of 1823. The 8 Escudos was the only gold denomination minted in 1822. It was not until 1823 that the subsidiary 4 Escudos was introduced. Historically significant, as this coin represents the first gold coin of Mexico post Spanish rule. A very attractive high grade example with good luster and excellent eye appeal. **VERY RARE** in high grade, especially so in mint state.

21254 Centavo, 1874-Oa. Oaxaca Mint. KM-391.7; Grove-5558. **VERY RARE** date as are all large centavos from this mint. Mintage of only 4,835 pieces. Far inferior examples graded NGC Good Details - Scratches from our November, 2012 Baltimore auction, Lot # 11365 hammered down for \$1,300 (this example had many scratches on both obverse and reverse) and from our March, 2011 Baltimore auction, Lot # 8840 graded **VERY GOOD** with light porosity hammered down at \$2,750. In both cases the strike was not nearly as well executed or defined as the present example. Two light scratches from long ago now toned over and blend nicely with the rest of the obverse. Slightly porous surfaces as is usual for the issue, but overall a nice wholesome example with an excellent strike and attractive brown patina. Sure to excite even the most advanced collectors of Republican coinage.

NGC VF Details—Scratches..... \$1,500-\$2,000

Tied For Finest Certified 1922 Two Centavos

MEXICO

21274 2 Centavos, 1922-Mo. KM-419. Tied for finest certified at NGC or PCGS. **EXTREMELY RARE** in this high state of preservation. Seldom encountered key date of the 2 Centavos series. It seems most likely that the mint produced the dies and struck a small quantity intended for circulation, but never received an order from the Banco de Mexico for mass production as there are no mintage records listed for this issue. The few pieces that found their way into circulation endured

heavy use and are normally encountered well worn and with corrosion. A seldom available opportunity to acquire this iconic Mexican rarity. Razor sharp strike with glossy brown surfaces and highly attractive.

21303 Silver Medal, 1740. Invention of Typography by Dutch Inventor Laurens Coster Silver Medal, 1740. 54mm. ca.56 gms. VanLoon-147. Bust of Coster on pedestal, half left, surrounded by books, a lamp, an ouroboros, a laurel wreath, and a printing press. The legend: "LAUR.I.COSTERUS.CONS.HARLEM.TYPOGR.INVENT.AD.AN:MCCCCXL" surrounds; Reverse: City Arms of Haarlem, a view of the city, and Fame flying above. Coster is sometimes credited with the invention of moveable type, but most give that honor to Johannes Gutenberg, working in Germany in the same time period. A very attractive medal, struck in pleasing high-relief with deep pearl-gray toning which exhibits hints of multi-color iridescence on both sides.

Christian V was the first king anointed at Frederiksborg Castle chapel as absolute monarch. He was a big proponent of architecture and dreamed of a Danish Versailles. His motto was "Pietate et Justitia" (With piety and justice). Overall he was well regarded by his subjects as he allowed commoners into state service. Despite his lack of interest or knowledge a golden age of science was achieved due to the hard work of the astronomer Ole Romer. However, due to massive losses and empty coffers by the end of the Scanian war his image was tainted and he fell out of favor. An incredible example far nicer than normally encountered with sharp details with just a hint of tone in the peripheries and amongst the devices.

A great example for the type. Bold strike with nearly full mint luster. Choice and highly desirable as such. Struck during the brief three year period of the Peru-Bolivian Confederation 11 August 1836 to 25 August 1839, which was an attempt to restore the ancient union of Alto Peru (Upper Peru, now Bolivia) and Bajo Peru (Lower Peru, now Peru) and from its inception was seen as a threat to neighboring Chile and Argentina. Due to chronic political unrest, internal division and after several failed previous attempts Bolivian President, Marshal Andres de Santa Cruz seized his opportunity in 1835 when Peruvian President General Luis Orbegoso requested assistance to fight the rebel armies of Agustin Gamarra and Felipe Santiago Salaverry each of which were decisively defeated at the battles of Yanacocha 13 August 1835 and Socabaya 7 February 1836 respectively. Afterwards Orbegoso regained his leadership and acceded to the formation of the Peru-Bolivian Confederation. Santa Cruz was named Supreme Protectorship and Orbegoso maintained his presidency of the newly created Republic of North Peru. Santa Cruz called a congress of the northern departments of Peru and founded the republic 11 August 1836 and together with South Peru recognized him as Supreme Protector which enabled him to create the Peru-Bolivian Confederation 28 October 1836. The following May a Constitution was established and a pact was signed naming the Supreme Protector for a period of ten years. Santa Cruz was seen as an Authoritarian increasing state revenue while reducing expenditures which led to resistance and declarations of war by Chile 28 December 1836 and Argentina 9 May 1837. The Supreme Protector was defeated at the Battle of Yungay 20 January 1839 which forced the dissolution of the Confederation. The joining of the Republics of North and South Peru to become one united Peru was announced after Agustin Gamarra became president on 25 August 1839 and the dissolution of the Confederation was officially declared separating from Bolivia.

21339 South Peru. 8 Escudos, 1837-BA. Cuzco Mint. Fr-91; KM-167. South Peru existed as a separate entity for only three years, and yet in this short time span some of the most beautiful coinage to ever be created in South America came to life. The compelling design elements of coinage from South Peru, combining much of the heritage of Peru into a single codified representation, have held great attraction for numismatists ever since these coins were first created. The coin offered here features the earlier “ESTADO SUD PERUANO” legend on the obverse along with four stars representing the four constituent departments of South Peru, which were comprised of Ayacucho, Cuzco, Arequipa and Puno. The reverse depicts features of South Peru including a volcano and a Inca fortress. Some tooling can be found on the obverse, though great strike details and luster are certainly present as well. 21340 South Peru. 8 Escudos, 1838-MS. Cuzco Mint. Fr-92; KM-171. Later Republic type with “REPUB. SUD PERUANA” obverse legend, and “CONFEDERACION” lower reverse legend. Peru was partitioned in 1836 after Bolivian dictator Andres Santa Cruz crushed an army rebellion against Peruvian president Luis Jose de Orbegosos, and created a new confederation. The new state consisted of North and South Peru, which were both then joined administratively to Bolivia. The union was short lived, and ended with the Battle of Yungay (January 20, 1839) when Chile (aligned with dissident Peruvians) toppled the new state. Santa Cruz then fled into exile. The years following the fall of the confederation saw prolonged internal conflict and chaos within both Peru and Bolivia. The piece offered here was from the last year of relative stability. The design features four stars representing the four constituent departments of South Peru, which were comprised of Ayacucho, Cuzco, Arequipa and Puno. The reverse depicts features of South Peru including a volcano and a Inca fortress. Signs of minor tooling and minor bits of residue. The reverse legend reads "MAG+DVX +LIT+RVS+PRVSSIAE+MAS+&C" and clearly shows that the last portion of the legend of the reverse die had been

reworked. One of the more interesting aspects of this piece is the abbreviation of Lithuania with the full spelling of Prussia. Cleaned long ago now with attractive slate grey tone hugging the devices and a medium grey in the fields. Well struck with all of the major design aspects present. Highly significant and sure to attract the connoisseur of Polish numismatics.

Massive Birth of Alexander Pavlovich Gold Medal

RUSSIA

21406 Birth of Grand Duke Alexander Pavlovich Medal Struck in Gold by J.B. Gass/J.C.G. Jaeger, 1777. Catherine II (the Great) (1762-96). Approximately 65 mm. cf.Dia-176.1(unlisted in gold). Crowned and laureate bust right, legend around; Reverse: Crowned robbed female with arm extending towards beams of light facing left holding infant, altar and shield with the arms of Russia to left, legend to left, four line inscription in exergue. Alexander I, born Alexander Pavlovich was the first child of Grand Duke Pavel Petrovich (Paul I) and Grand Duchess Maris Fyodorvna. He was raised by his grandmother Empress Catherine II (the Great) who had disinherited her own son (Paul I) due to his instability. He received a fine education from Frederic-Cesar La Harpe who was an excellent teacher and helped to shape his open mind. When he reached adolescences he was allowed to visit his father at Gatchina on the outskirts of St. Petersburg where he received his military training from Aleksey Andreyevich who had become quite attached to whom Alexander loved throughout his life. When Catherine II died Paul I ascended the throne and plunged Russia into a dark period with his tyrannical and bizarre behavior. After a long five year reign Paul I was assassinated during the night of March 23 (March 11, Old style) and Alexander became tsar the following day. The new Emperor was seen as a radiant dawn after the darkness of his father and had given his subjects new hope. He was

very well liked by his subjects and made vast improvements to his country correcting many of the injustices of his father. One of his principal achievements was the reform of public education and founded three new universities. At one point out of his sincere desire for innovation he had considered a constitution that would limit the autocracy, but feared the backlash of the nobility. When his estranged wife fell ill he decided to take her to Taganrog on the Azov Sea where they enjoyed a calm happiness. While in Taganrog he decided to tour the Crimea for inspection and contracted either pneumonia or malaria and died on his return to Taganrog. Though stated as "Edge Repaired" on the insert there does seem to be some minor smoothing of the edge which is negligible and hardly distracting. Excellent strike with well defined features of the expressive bust of Empress Catherine II and the design aspects of the reverse so much so that one can make out the minute details of the robbed female holding the infant. Light wispy hairlines in the open fields from long ago now somewhat subdued with lovely honey-gold tone. **EXTREMELY RARE**, very interesting and sure to excite even the most advanced collector of Russian numismatics.

21410 Coronation of Paul I Gold Medal, ND (1797). cf.Diakov-243.10. By C. Meisner. Peruked and uniformed bust of Paul facing right; Reverse: Broad, shaded cross in plain field. Minor filing to the rims. Paul I ascended the throne after his mother Catherine the great died from a stroke on 17 November 1796. His legitimacy as rightful heir to the throne was in question and his first act as Emperor was to locate and possibly destroy his mothers last will and testament which he feared would exclude him from succession. He was the only son of Peter III whom he resembled quite a bit and Catherine

the Great, though she hinted that her lover Sergei Saltykov also of Romanov blood had fathered him. The lower classes approved of him, but he was disliked by the noble class as his policies were generally considered an annoyance which led to a conspiracy and ultimately his assassination 23 March 1801. 21414 Prize Medal to Students of Dorpat (Juriev) University Struck in Gold by C. Leberecht, ND (1804). Approximately 51 mm. Dia-290.1(unlisted in gold). Original issue, the name of the university was changed from Dorpat to Juriev in 1893. Bust of Alexander I right, legend around; Reverse: Six-line inscription within wreath "INGENIO ET STUDIO UNIVERS.LIT.CAES. DORPAT. D. XII. DEC." (To Talent and Diligence from the Imperial Dorpat University December 12). Established in the 17th century by Gustavus Adolphus of Sweden it is the largest and most prestigious university in Estonia. The university closed in 1710 because of the surrender to the Russians during the Great Northern War and reopen nearly a century later in 1802 by the Baltic German Ritterschaften and a new charter confirmed by Alexander I of Russia. Being that the university was re-opened by the Baltic Germans in April 1802 the primary language of instruction was German, but also Russian because of administrative and financial needs. The university educated the administration and health system of the entire Russian Empire. **EXTREMELY RARE** and very interesting. The noted rim damage on the insert must be from a small unobtrusive edge nick at about 3 o'clock now covered by the gasket. Sharply struck with good definition of the fine details in high-relief. 21418 Silver Small Pox Vaccination Medal, ND (Instituted 1826). Dia-464.2. Awarded to the most distinguished smallpox inoculators. Crowned and mantled bust of Catherine II right, legend around; Reverse: Female (Hygiea) figure with out stretched arms surrounded by seven children, legend above. It is widely accepted and thought that the small pox vaccination was discovered in 1796 by the English doctor Edward Jenner whom experimented on a young Mr. James Phipps using fluid from milkmaids infected with cow pox. However, this practice did not begin with Dr. Jenner and only after he used cow pox did the term vaccination from the Latin word "Vacca" (meaning cow) come into use. In fact inoculations had been used for centuries and according to some sources probably originated in the Orient. Catherine II preceded Jenner by about 28 years when in 1767 an epidemic broke out in Siberia killing tens of thousands of her subjects and she recruited Dr. Thomas Dimsdale in 1768, a famous inoculator of the day. Together with his son, Nathaniel Dimsdale, they inoculated the Empress and her son with a mild case of small pox to gain credibility with her subjects. On October 12, 1768 she was inoculated and developed a light case of small pox and by October 28th had fully recovered. She later inoculated around 140 members of her court, all who survived. Afterwards the inoculation became known and widely accepted. She saved countless lives of her subjects and went on to establish the first Russian college of medicine. **VERY RARE** and very attractive with a multitude of hues in the legends and lovely blues and purples in the wide open fields. C-118.6; Bit-918; Brekke-137; Uzd-3264. **VERY RARE.** Struck at the St. Petersburg mint in the style of those of Alexander I, but remained as a pattern only issue and never released into circulation. Since copper coinage began turning to change from paper currency the value they held also began falling which caused several reforms. During the reign of Nicholas I copper coinage went through four different standards of Rubles to the pood 24 (1826-30), 36 (1830-39),

16 (1839-48) & 32 (1849-55). The public had lost faith in the subsidiary copper issues as by 1839 they were only 16 rubles to the pood. The new reform which helped to regain the public's lost faith with the government started issuing copper coins with values stated in silver. Sharply struck and very attractive with Mahogany and chestnut patina.

WEST INDIES

21540 Double Island Countermark. Martinique-Tortola. Shilling (1/8 Dollar), ND (ca. 1805-24). 2.60 gms. KM-16 (for "TIRTILA" basic type), KM-26 (for Martinique basic edge cut type); Prid-14 (for "TIRTILA" basic denomination), Prid-1 (for "Martinique" basic edge cut type). Type III countermark, TIRTILA. Initial cut 1/4 Dollar with crenelated edge indicates mutilation in Martinique by local ordinance of 1st September 1797. Later cut down to 1/8 Dollar and later still countermarked for use in Tortola ca. 1805-24. All on a cut 1/8 Spanish colonial 8 Reales. The interesting part about this piece is that the colonial edge was shaved off before the application of the Tortola countermark based the fact that when the countermark was applied the force from the strike pushed the edge out creating a bulge. An interesting piece sure to add depth any collection of West Indies. Countermark deeply impressed with attractive soft grey tone. Host coin nearly worn slick, Countermark

- 22344 Order of Nichan el Anouar (Order of the Light) Neck Badge, ND (Established 1887).** 58 x 78 mm (badge and crown suspender). Wer-420. Ten-pointed faceted silver star with gilt five-pointed stars between each arm. At the center a round blue medallion with a red border inscribed with an Arabic inscription. The medallion surmounted by a 5-pointed silver star. The reverse is plain except for maker's and guarantee marks (also on the cravat ring). The 37 x 380 mm (excluding ties) neck ribbon is of watered silk and is blue with a central white stripe. The Order was originated in 1887 by the Sultan of Tadjourah, Hamed-ben-Mohamed, to "perpetuate the happy moment when he and his people placed themselves under the protection of glorious France". This particular example suspended from the ribbon variety that was in use from 1899 until 1963, when the order was deprecated. Tadjourah is a district of French Somaliland (now Djibouti) on the Horn of Africa across the Red Sea and Gulf of Aden from Yemen. This **RARE** French Colonial medal is housed in a blue leather medal presentation case inscribed: "A. 22478 National Exhibition of Shakespeare's Works Silver Medal, 1803. 48 mm. Eimer-950; BHM-553. The Immortal Bard, sitting on a rock, flanked by the Muse of Drama and the Genius of Painting; Reverse: sixteen line inscription. The edge lettered: "SIR ALURED CLARKE". Field Marshal Sir Alured Clarke (1744-1832) was quite a remarkable person. He was the officer in charge of all British troops in Georgia during the American Revolution and was then deployed to Philadelphia to supervise the evacuation of British prisoners of war at the end of that conflict. Later he was appointed Governor of Jamaica and then Lieutenant-Governor of Lower Canada. Following that he was sent to India where he became Commander-in-Chief of the Madras Army, then briefly Governor-General of India and finally Commander-in-Chief of India during the Fourth Anglo-Mysore War. Multi-color iridescent toning overlies reflective fields. Ancient silver polish residue is still evident within many letters of the legends, as well as in the deeper crevices of the design, but this does not distract from the overall appeal of the medal.

22559 St. George Gold Medallion Multiple Ducat, ND. 38 mm; 24.2 gms. cf. Cuhaj X#8.1a. Mounted St. George spearing a dragon with his lance, legend S. GEORGIUS EQVITUM PATRONUS above. Reverse: Christ and Apostles aboard a ship in stormy seas, legend "IN TEMPESTATE SECURITAS" above. A popular design which was struck in various sizes and metals for hundreds of years, and regarded as a good luck or protective charm for sailors and fishermen. This piece is likely from the late 19th or early 20th century and is modeled after the much earlier works of Wilhelm Becker and Christian Herman Roth. Unsigned. Smaller and lighter than the example cataloged by Cuhaj, and lacking the KB mintmark. Marked with an A within a circle and 585 (14K) both near the obverse rim at 7 o'clock and on the edge. Problem free and attractive.

22733 8 Reales Contemporary Counterfeit, 1803-FM. KM-109 (for type); FC-(Rarity 9) see notes under 92a (Money Company 6/81, #534, needs study); El-unlisted. A very interesting and quite convincing contemporary counterfeit of near proper style. A sole genuine example of the 1803-FM 8 Reales first surfaced in the 1981 Money Company auction as lot #534. This discovery puzzled numismatists at the time, as the assayer's initials were previously unknown for this date. The existence of coins dated 1802 and 1803 with the assayer letter FF over FM further complicated the issue, giving reason for such a coin to exist. The money company example was tested in the 1990's for metal contents as well as using digital overlays to confirm the die style as genuine. This second example is of a different die paring, slightly light in weight at 26.53 gms. Further tests were conducted on this piece using specific gravity and XRF testing showing the metal purity to be just over 72% fine with traces of copper, nickel, zinc and lead (thus confirming it a contemporary forgery). A very interesting and academic piece, worthy of collecting as an inexpensive yet convincing contemporary example of this VERY RARE coin.

- 22992 Battle of Monte de las Cruces Bronze Medal, 1810.** 53mm. By F. Gordillo. Grove F-198b. At top an oval medallion with a bust of King Ferdinand VII is supported by a cherub and a lion. Below is an intricately engraved battle scene with Ferdinand's troops, cavalry and cannon attacking the insurgents. The date of the battle, the sculptor's name, and the Mexico City Mint Mark all appear in the tiny exergue. The reverse bears an 11 line inscription: "AL / EXMO SOR VENEGAS / AL REGIMIENTO / DE LAS TRES VILLAS / Y DEMAS TROPAS / QUE CON SUS COMANDANTES / TRUXILLO MENDIVIL Y BRINGAS / SOSTUVIERON / LA GLORIOSA ACCION / DEL MONTE DE LAS CRUCES / VERACRUZ." An unusual medal, giving the appearance that the Spanish Royalist forces were victorious - however, despite suffering fewer casualties, the tactical victory went to Father Miguel Hidalgo and his insurgent army, which eventually decided to spare Mexico City after achieving this high point in their first campaign. Pleasing red-brown patina with some roughness to parts of the rope-like border on the obverse. The more protected reverse a little sharper, with abundant blue-green iridescence noted in the protected spaces between the legends.

23198 32nd Kremenchug Infantry Regiment Badge, ND (1910). 34.5 x 54.5 mm. Andolenko-205. Base metal openwork wreath of oak and laurel with a crowned Russian Imperial Eagle at the top. In the center are the ciphers of Alexander I and Nicholas II, Czars at the time of the regiment's founding in 1806 and at their centennial in 1906. The ciphers flank an anchor - seemingly an unusual emblem for an infantry regiment! At the bottom, superimposed on the bow tying the two branches of the wreath together, is a small representation of the St. George Cross. Reverse is blank and supports a screw post and its nut, which appear to be of nickel-silver. The officer badges are made of silver and have extensive enamel work, but the enlisted men received badges, like this, in unenameled brass - which are actually less frequently encountered than the silver officer's badges. Splendid antique brass finish and appears almost as issued.

23273 300th Anniversary of the Reformation in Geneva Electrotrope Bronze Medal, 1835. 112 mm. Whiting-682. By Antoine Bovy. Fur cape and capped portrait of the reformer John Calvin (1509-1564) to the left; Reverse: Gothic pulpit, with inscriptions: “IL TEINT FERME / COME S’IL EVST VEV CELVY / QUI EST INVISIBLE” divided by the pillars. Too large to have been struck by conventional methods at the time, this handsome piece was made by electrotyping two thin copper shells, filling them with lead, and fitting the two shells together. Regarded as the finest of John Calvin medals. Rich mahogany surfaces overall, with some surface distractions in the obverse fields - otherwise **NEARLY MINT STATE. \$150-\$250**

23366 Orders & Decorations of the World, ND. 5 pieces in lot. A small but strong assemblage which contains: Belgium Order of Leopold Officer's badge with swords and silver clasp on ribbon (Barac-197d); Brazil National Order of the Southern Cross (Type III) Grand Officer badge and star set (Barac-91/2); Kingdom of Italy Grand Officer Breast Star (Barac-811) and a USSR Order of the Red Banner badge (Vernon-337). The Brazilian set is the most choice of all with vibrant and wholly intact enamels and attractively toned silver and gilt elements. The Italian star is intact but one of the white crosses shows some very mild scuffing and the Russian badge has been separated from its ribbon hanger although it is present. The Belgian piece exhibits considerable enamel loss in the wreath, the arms of the cross and the lion rampant on the central disc is reduced to only one paw. A group which offers nice vintage pieces and is worth a closer look. Retail value of about \$1,000. **SOLD AS IS/NO RETURNS.**

Terms & Conditions

1. Auction Basics. This is a public auction sale ("Auction Sale") conducted by bonded auctioneers, Stack's Bowers Galleries or Stack's Bowers and Ponterio (hereinafter referred to as "Auctioneer" and at times as "Stack's Bowers"). Bidding in this Auction Sale constitutes acceptance by you ("Bidder") of all the Terms of Sale stated herein. Bidders may include consignors who may bid and purchase lots in the Auction Sale consigned by the consignor or by other consignors pursuant to their consignment agreement with Stack's Bowers ("Consignor" or "Consignors"). A Consignor that bids on their own lots in the Auction Sale may pay a different fee than the Buyer's Premium charged to all other Buyers. Stack's Bowers reserves the right to include in any auction sale its own material as well as material from affiliated or related companies, principals, officers or employees. Stack's Bowers may have direct or indirect interests in any of the lots in the auction and may collect commissions. THE TWO PRECEDING SENTENCES SHALL BE DEEMED A PART OF THE DESCRIPTION OF ALL LOTS CONTAINED IN THE CATALOG. Where the Consignor has repurchased a lot and the lot is either returned to the Consignor or otherwise dealt with or disposed of in accordance with the Consignor's direction, or pursuant to contractual agreement, Stack's Bowers reserves the right to so note in the prices realized or to omit a price from the prices realized. Stack's Bowers and its affiliates may bid for their own account at any auction. Stack's Bowers and its affiliates may have information about any lot that is not known publicly, and Stack's Bowers and its affiliates reserves the right to use such information, in a manner determined solely by them and for their benefit, without disclosing such information in the catalog, catalog description or at the auction. Bidder acknowledges and agrees that Stack's Bowers and its affiliates are not required to pay a Buyer's Premium, or other charges that other Bidders may be required to pay and may have access to information concerning the lots that is not otherwise available to the public. Any claimed conflict of interest or claimed competitive advantage resulting therefrom is expressly waived by all participants in the Auction Sale. Lots may carry a reserve ("Reserve"). A Reserve is a price or bid below which the Auctioneer will not sell an item or will repurchase on behalf of the Consignor or for Stack's Bowers. Reserves may be confidential and not disclosed. The Buyer is the Bidder who makes the highest bid accepted by the Auctioneer, and includes the principal of any Bidder acting as an agent.

2. Descriptions and Grading. Bidder acknowledges that grading of most coins and currency in this Auction has been determined by independent grading services, and those that are not may be graded by Stack's Bowers. Grading of rare coins and currency is subjective and, even though grading has a material effect on the value of the coins and currency, grading may differ among independent grading services and among numismatists. Stack's Bowers is not responsible for the grades assigned by independent grading services, and makes no warranty or representation regarding such grades. Bidder further acknowledges and agrees that grades assigned by Stack's Bowers and lot descriptions are based solely upon an examination of the coins and currency and are intended to identify coins and currency and note any perceived characteristics. However, coin grading and descriptions are subjective. Stack's Bowers does not warrant the accuracy of such grading or descriptions, nor do they in any way form the basis for any bid. All photographs in this catalog are of the actual items being sold but may not be the actual size or to scale.

3. The Bidding Process. The Auctioneer shall have the right to open or accept the bidding on any lot by placing a bid on behalf of the Consignor or his or her agent; a Bidder by mail, telephone, Internet or telefax; or any other participant in the Auction Sale. Bids must be for an entire lot and each lot constitutes a separate sale. All bids must be on increment as established by the Auctioneer, or half increment (a cut bid). Non-conforming bids will be rounded down to the nearest full increment and this rounded bid will be the bidder's high bid. No lot will be broken up unless otherwise permitted by the Auctioneer. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise. All material shall be sold in separate lots to the highest Bidder as determined by the Auctioneer. Auctioneer shall have the right in its sole and absolute discretion to accept or decline any bid, establish bid increments, challenge any bid or bidding increment, to reduce any mail bid received, adjudicate all bidding disputes, to exclude any bidder and to determine the prevailing bid. The Auctioneer shall have the right, but not the obligation, to rescind the acceptance of any bid and place the lot(s) for Auction Sale again. Auctioneer's decision on all bidding disputes shall be binding and final. For the mail and Internet Bidder's protection, no "unlimited" or "buy" bids will be accepted. When identical bids are received for a lot, preference is given to the first bid received as determined by the Auctioneer. A mail bid will take precedence over an identical floor bid; a Floor Bidder, Telephone Bidder

and Live Internet Bidder must bid higher than the highest mail bid to be awarded any lot. Cut bids are only accepted on bids greater than \$500 and each bidder may only execute one cut bid per lot. Bids will not be accepted from persons under eighteen (18) years of age without a parent's written consent which acknowledges the Terms of Sale herein and agrees to be bound thereby on behalf of the underage Bidder. The auction sale is complete when the Auctioneer so announces by the fall of the hammer or in any other customary manner.

THIS IS NOT AN APPROVAL SALE. Bidders who physically attend the Auction sale, either personally or through an agent ("Floor Bidders") should carefully examine all lots which they are interested in purchasing. Bidders who bid by telephone, either personally or through an agent, or through our live auction software receive a similar benefit as Floor Bidders in being able to actively participate in the live Auction Sale ("Telephone Bidders" and "Live Internet Bidders"). Except as otherwise expressly provided in these Terms of Sale, NO PURCHASED ITEMS MAY BE RETURNED FOR ANY REASON. All prospective Bidders who examine the lot(s) prior to the Auction Sale personally assume all responsibility for any damage that Bidder causes to the lot(s). Stack's Bowers shall have sole discretion in determining the value of the damage caused, which shall be promptly paid by such Bidder.

Certain auctions or auction sessions, will be conducted exclusively over the Internet, and bids will be accepted only from pre-registered Bidders.

STACK'S BOWERS IS NOT RESPONSIBLE FOR ANY ERRORS IN BIDDING. All Bidders should make certain to bid on the correct lot and that the bid is the bid intended. Once the hammer has fallen and the Auctioneer has announced the Buyer, the Buyer is unconditionally bound to pay for the lot, even if the Buyer made a mistake. Stack's Bowers reserves the right to withdraw any lot at any time, even after the hammer has fallen, until the Buyer has taken physical possession of the lot. No participant in the Auction Sale shall have a right to claim any damages, including consequential damages if a lot is withdrawn, even if the withdrawal occurs after the Auction Sale.

4. Bidder Registration Required. All persons seeking to bid must complete and sign a registration card either at the auction or online, or otherwise qualify to bid, as determined in the sole discretion of the Auctioneer. By submitting a bid, the Bidder acknowledges that Bidder has read the Terms and Conditions of Auction Sale, the descriptions for the lot(s) on which they have bid, and that they agree to be bound by these Terms of Sale. This agreement shall be deemed to have been made and entered in California. The Bidder acknowledges that the invoice describing a lot by number incorporates the catalog and Terms of Sale. Person appearing on the OFAC list are not eligible to bid.

5. Buyer's Premiums. A premium of seventeen and one-half percent (17 1/2%) based upon the total amount of the hammer (minimum of \$15), will be added to all purchases of individual lots, regardless of affiliation with any group or organization (the "Buyer's Premium"). A reacquisition charge may apply to Consignors pursuant to a separate agreement, which may be higher or lower than the Buyer's Premium.

6. Payment. Payment is due immediately upon the fall of the auctioneer's hammer. Payment is delinquent and in default if not received in full, in good funds, within fourteen (14) calendar days of the Auction Sale (the "Default Date"), without exception, time being of the essence. Unless otherwise agreed in writing prior to the Auction Sale, all auction sales are payable strictly in immediately available good U.S. funds, through a bank in the United States. Payments may be made by credit card, Paypal, check, wire transfer, money order and cashier's check. Cash transactions will be accepted in the sole discretion of Stack's Bowers, and if accepted, for any cash transaction or series of transactions exceeding \$10,000, a Treasury Form 8300 will be filed. Contact Stack's Bowers for wiring instructions before sending a wire. Bank wires sent from a foreign bank are subject to an international bank wire fee of \$35. We accept payment by Visa, MasterCard, American Express, Discover or Paypal for invoices up to \$2,500, with a maximum of \$10,000 in any 30 day period. All payments are subject to a clearing period. Checks drawn on U.S. banks will be subject to up to a 10 business day hold, and checks drawn on foreign banks will be subject to a 30 day hold. Stack's Bowers reserves the right not to release lots for which good funds have not yet been received. On any past due accounts, Stack's Bowers reserves the right, without notice, to extend credit and impose carrying charges (as described below). Buyers agree to pay reasonable attorney's fees and cost incurred to collect past due accounts. Buyers personally and unconditionally guarantee payment in full

Terms & Conditions (cont.)

of all amounts owed to Stack's Bowers. Any person submitting bids on behalf of a corporation or other entity, by making such bid, agrees to be personally jointly and severally liable for the payment of the purchase price and any related charges and the performance of all Buyer obligations under these Terms of Sale and Stack's Bowers reserves the right to require a written guarantee of such payments and obligations. Bidders who have not established credit with Stack's Bowers must furnish satisfactory information and credit references and/or deposit at least twenty-five percent (25%) of their total bids for that Auction Sale session(s) or such other amount as Stack's Bowers may, in its sole and absolute discretion require before any bids from such Bidder will be accepted. Deposits submitted will be applied to purchases. Any remaining deposits will be promptly refunded, upon clearance of funds.

7. Sales Tax. Buyers will be charged all applicable sales tax, including Buyers who pick up at this Auction or shipments to Buyers in California and New York without a valid Resale Certificate which has been provided to the Auctioneer prior to the auction. Please note that the purchase of any coin or bullion lot(s) with a price, including the Buyer's Premium, in excess of: (i) One Thousand Dollars (\$1,000), for auctions held in Maryland, are exempt from Maryland sales tax, and (ii) One Thousand Five Hundred Dollars (\$1,500) are exempt from California sales tax. These exemptions do not apply purchases of currency. Purchases of coins and currency are exempt from sales tax in Illinois. Although the State of Colorado exempts retail sales of coins and precious metal bullion from states sales tax, the City of Denver imposes a 3.65% sales tax on the retail sale of coins and precious metals bullion. The retail sale of tokens, medals, currency or anything that is not a coin is subject to both a 4% Colorado state tax and the Denver 3.65% tax, for a total of a 7.65% sales tax. Please note, this is not, and is not intended to be, a complete description of applicable sales tax laws in all jurisdictions. In the event any applicable sales tax is not paid by Buyer that should have been paid, even if not such tax was not collected by Stack's Bowers by mistake, error, negligence or gross negligence, Buyer nonetheless remains fully liable for and agrees to promptly pay such taxes on demand, together with any interest or penalty that may be assessed by the taxing authority.

8. Financial Responsibility. In the event any applicable conditions of these Terms of Sale herein are not complied with by a Buyer or if the Buyer fails to make payment in full by the Default Date, Stack's Bowers reserves the right, in its sole discretion, in addition to all other remedies which it may have at law or in equity to rescind the sale of that lot or any other lot or lots sold to the defaulting Buyer, retaining all payments made by Buyer as liquidated damages, it being recognized that actual damages may be speculative or difficult to compute, and resell a portion or all of the lots held by Stack's Bowers, in a commercially reasonable manner, which may include a public or private sale, in a quantity sufficient in the opinion of Stack's Bowers to satisfy the indebtedness, plus all accrued charges, and Stack's Bowers may charge a seller's commission that is commercially reasonable. More than one such sale may take place at the option of Stack's Bowers. If Stack's Bowers resells the lots, Buyer agrees to pay for the reasonable cost of such sale, together with any incidental costs of sale, including reasonable attorney's fees and costs, cataloging and any other reasonable charges. Notice of the sale shall be by U.S.P.S. Certified Mail, Return Receipt Requested to the address utilized on the Bid Sheet, Auction Consignment and Security Agreement or other last known address by Stack's Bowers. The proceeds shall be applied first to the satisfaction of any damages occasioned by Buyer's breach, then to any other indebtedness owed to Stack's Bowers, including without limitation, commissions, handling charges, carrying charges, the expenses of both sales, seller's fees, reasonable attorneys' fees, costs, collection agency fees and costs and any other costs or expenses incurred. Buyer shall also be liable to Stack's Bowers for any deficiency if the proceeds of such sale or sales are insufficient to cover such amounts.

Buyer grants to Stack's Bowers, its affiliates and assignees, the right to offset any sums due, or found to be due to Stack's Bowers, and to make such offset from any past, current, or future consignment, or purchases that are in the possession or control of Stack's Bowers; or from any sums due to Buyer by Stack's Bowers, its affiliates and assignees. In addition, defaulting Buyers will be deemed to have granted to Stack's Bowers, its affiliates and assignees, a security interest in: (x) the purchased lots and their proceeds, and (y) such sums or other items and their proceeds, in the possession of Stack's Bowers, its affiliates or assignees, to secure all indebtedness due to Stack's Bowers and its affiliated companies, plus all accrued expenses, carrying charges, seller's fees, attorney fees, and costs, until the indebtedness is paid in full. Buyer grants Stack's Bowers the right to file a UCC-1 financing statement for such items, and to

assign such interest to any affiliated or related company or any third party deemed appropriate by Stack's Bowers. If the auction invoice is not paid in full by the Default Date, a carrying charge of one-and-one-half percent (1-1/2%) per month may be imposed on the unpaid amount until it is paid in full. In the event this interest rate exceeds the interest permitted by law, the same shall be adjusted to the maximum rate permitted by law, and any amount paid in excess thereof shall be allocated to principal. Buyer agrees to pay all reasonable attorney's fees, court costs and other collection costs incurred by Stack's Bowers or any affiliated or related company to collect past due invoices or to interpret or enforce the terms hereof or in any action or proceeding arising out of or related to the Auction Sale. Stack's Bowers reserves the right to assign its interest to any third party. To the extent that the Buyer for any lot consists of more than one person or entity, each such person or entity is jointly and severally liable for all obligations of the Buyer, regardless of the title or capacity of such person or entity. Stack's Bowers shall have all the rights of a secured creditor under Article 9 of the California Commercial Code and all rights of the consignor to collect amounts due from the Buyer, whether at law or equity.

9. Shipping. It is the Buyer's responsibility to contact Stack's Bowers after the sale to make shipping and packaging arrangements. Due to the fragile nature of some lots, Stack's Bowers may elect not to assume responsibility for shipping or packing, or may charge additional shipping and handling. Lots indicated as being "framed" or that are specifically identified in the catalog are shipped at Buyer's risk. All taxes, postage, shipping, if applicable, handling, insurance costs, the Buyer's Premium, and any other fees required by law to be charged or collected will be added to the invoice for any lots invoiced to Buyer. All lots shipped to foreign countries will be billed an additional one-half percent (1/2%) for insurance (minimum of \$10). For any lots delivered outside the United States, the declaration value shall be the item's hammer price plus its buyers premium. Auctioneer shall not be liable for any loss caused or resulting from seizure or destruction under quarantine or customs regulation or confiscation by order of any government or public authority. All lots will be shipped FOB Destination, freight prepaid and charged back. Title and risk of loss pass to the Buyer at the destination upon tender of delivery. Acceptance of delivery constitutes acceptance of the purchased lots. Inspection of the purchased lots is not required for acceptance. Any and all claims based upon Buyer's failure to receive a purchased lot, Buyer's receipt of a lot in damaged condition, or otherwise related to delivery, must be received in writing by Stack's Bowers no later than the earlier of thirty (30) days after payment, or the date of the Auction Sale (the "Outside Claim Date"). As Buyers may not receive notification of shipment, it is Buyer's responsibility to keep track of the Outside Claim Date and make timely notification of any such claim. The failure to make a timely claim, time being of the essence, shall constitute a waiver of any such claim. Orders paid by credit card will only be shipped to the verified address on file with the credit card merchant.

10. DISCLAIMER AND WARRANTIES. NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IS MADE OR IMPLIED ON ANY LOT. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY LOT EXCEPT FOR WARRANTY OF TITLE, AND IN THE CASE OF TITLE, AUCTIONEER IS SELLING ONLY THAT RIGHT OR TITLE TO THE LOT THAT THE CONSIGNOR MAY HAVE AS OF THE AUCTION SALE DATE. ALL LOTS ARE SOLD "AS IS" AND WITH ALL FAULTS. PURCHASER HEREBY ASSUMES ALL RISKS CONCERNING AND RELATED TO THE GRADING, QUALITY, DESCRIPTION, CONDITION, AUTHENTICITY, AND PROVENANCE OF A LOT.

a. COINS AND CURRENCY LISTED IN THIS CATALOG GRADED BY PCGS, NGC, ANACS, ICG, PCGS CURRENCY, PMG, PCGS BANKNOTE GRADING, CMC OR ANY OTHER THIRD PARTY GRADING SERVICE OR EXAMINED BY THE BUYER PRIOR TO THE AUCTION SALE MAY NOT BE RETURNED FOR ANY REASON WHATSOEVER BY ANY BUYER, EXCEPT FOR CLAIMS RELATED TO AUTHENTICITY.

b. For non-certified coins and currency that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by Stack's Bowers that there is a material error in the catalog description of a non-certified coin or currency or the coin or currency is not authentic, such lot may be returned, provided written notice is received by Stack's Bowers no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by Stack's Bowers, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.

Terms & Conditions (cont.)

c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.

d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.

e. Grading or condition of rare coins and currency may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of Stack's Bowers. Stack's Bowers shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.

f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.

g. All oral and written statements made by Stack's Bowers and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of Stack's Bowers has authority to vary or alter these Terms and Conditions of Auction Sale. Stack's Bowers reserves the right to vary or alter the Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of Stack's Bowers authorized to do so.

h. Stack's Bowers is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, Stack's Bowers is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. Stack's Bowers does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither Stack's Bowers, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be uninterrupted or error free and accordingly shall not be liable for such events.

11. Waiver and Release. Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges Stack's Bowers, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale, and Bidder hereby knowingly and voluntarily waives any and all rights and benefits otherwise conferred upon him by the provisions of Section 1542 of the California Civil Code, which reads in full as follows:

"A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM OR HER MUST HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR."

12. Disputes. If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, Stack's Bowers reserves the right to commence a statutory interpleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. Stack's Bowers reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither Stack's Bowers nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct

thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from Stack's Bowers. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Stack's Bowers to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Orange County, California. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of California shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Orange County, California; and any court proceeding shall be in the Orange County Superior Court, in the State of California, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale. AUCTION PARTICIPANTS EXPRESSLY WAIVE ANY RIGHT TO TRIAL BY JURY.

13. General Terms. These Terms and Conditions of Auction Sale and the auction shall be construed and enforced in accordance with, and governed by, the laws of the State of California, regardless of the location of the Auction Sale. These Terms of Sale and the information on the Stack's Bowers' website constitute the entire agreement between the parties hereto on the subject matter hereof and supersede all other agreements, understandings, warranties and representations concerning the subject matter hereof. If any section of these Terms of Auction Sale or any term or provision of any section is held to be invalid, void, or unenforceable by any court of competent jurisdiction, the remaining sections or terms and provisions of a section shall continue in full force and effect without being impaired or invalidated in any way. Stack's Bowers may at its sole and absolute discretion, make loans or advances to Consignors and/or Bidders.

Bidding in this auction sale constitutes unconditional acceptance by the Bidder of the foregoing terms of sale.

Please note: Transparent holders in which the auction lots are stored are to facilitate viewing and inspection of the lots and ARE NOT for long-term storage.

PCGS and NGC numbers provided are for bidder convenience only, we do not guarantee their accuracy. An incorrect PCGS or NGC number is not grounds to return a lot.
